

## **Asymptomatic Home Testing Coronavirus**

(COVID-19) Asymptomatic home testing

Both students and staff in secondary schools will be supplied with Lateral Flow test kits to self-swab and test themselves twice a week at home. Ideally these tests should be completed on a Sunday and a Wednesday evening. Staff and students must report their result to NHS Test and Trace as soon as the test is completed either online or by telephone as per the instructions in the home test kit. Staff and students should also share their result with school, if positive using the following email address: [CovidResults@ttsonline.net](mailto:CovidResults@ttsonline.net).

Students aged 18 and over should self-test and report the result, with assistance if needed. Adolescents aged 12 to 17 should self-test and report with adult supervision. The adult may conduct the test if necessary. Children aged 11 attending a secondary school should be tested by an adult. Staff or students with a positive Lateral Flow test result will need to self-isolate in line with the stay-at-home guidance [Stay at home: guidance for households with possible or confirmed coronavirus \(COVID-19\) infection - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/stay-at-home-guidance-for-households-with-possible-or-confirmed-coronavirus-covid-19-infection).
