

Y6 Science Challenge

HELLO to all our new TTS students from the Science Department! We'd love you to complete ONE of the three challenges below – it's your choice!

Challenge 1

What is a Scientist?

When you think of a 'Scientist' what do you think of? Design a poster or write a poem to share your ideas and remember, not all scientists wear white coats!

Challenge 2

Safe Science!

Produce a science safety fact card about staying safe within the science lab. In your fact card you could include lab rules and also equipment you may use in the lab.

Challenge 3

Exciting Experiments!

Science experiments are always fun and they can be done at home too! Why not try one at home and take some photos/a video of it to show us the results!

We can't wait to meet you all soon!
