

Thomas Telford School

Prospectus

2026-2027

A message from the Headmaster

Mr Ian Rawlings
HEADMASTER

Over the past decade or more, Thomas Telford School has built up a reputation for outstanding GCSE results, making it one of the most successful comprehensive Schools in the country. In 2025, 91% of our Year 11 students completed Key Stage 4 with 5 or more 9 – 4 grades, including Mathematics and English.

Further information about our GCSE achievements can be found on Page 8 of this prospectus together with details of the outstanding results in the Sixth Form. For several years now Thomas Telford School has been one of the top performing comprehensive schools in the country.

It is, therefore, not surprising that many people ask why Thomas Telford School is doing so well. Of course, there are many reasons but the main ones must relate to the good order within the School where bullying is not tolerated, there are very high

levels of parental participation in supporting their children and there is an atmosphere where all students feel comfortable about being successful without the fear of others ridiculing them.

Everyone involved with this School knows what is expected of them and enjoys being part of a very successful team. The staff work very hard indeed and gain much satisfaction from supporting students to succeed. It all seems worthwhile when the self esteem of our students is noticeably evident for all to see when they visit Thomas Telford School.

A School for the 21st Century

Thomas Telford School is a City Technology College and is a founder member of the Specialist Schools and Academies Trust which, since the beginning of this century has played a major role in improving standards in secondary schools.

As with all CTCs and Academies, the School is sponsored. The two major sponsors are The Mercers' Company, which is the premier Livery Company in the City of London, and Tarmac Group Limited.

- The School is governed by an equal number of Governors nominated by each of the major sponsors together with no fewer than four additional Governors coopted by the nominated Governors. The nominated Governors must always be in the majority.
- Finances are under the direct control of the Headmaster and Governors which ensures that the School addresses its priorities.
- Thomas Telford School has a commitment to, and a proven record of, raising standards in education.
- High standards are expected from the students and all achievements are recognised in a positive way.
- A wide range of GCSE courses are available providing a broad and balanced curriculum.
- The staff of the School have developed a style of learning which embraces the imaginative use of technology coupled with proven traditional methods. This enables students to achieve greater independence and maturity using resources on our online curriculum.
- There are sophisticated Information Technology networks, computers and multi-media facilities.
- Creative timetabling allows students to work without interruption and minimises the need to change workplace. There are no bells to disrupt the work pattern.
- There is an emphasis on Mathematics, Science, Technology and Business Education as well as the National Curriculum.
- Information Technology is used as a tool and resource for learning by every student.
- The broad curriculum includes Music, Dance and Drama activities which ensure that students have a balanced education.
- Students have three years to complete GCSE courses, providing more time for the completion of coursework and the opportunity to take part in extra curricular activities.
- All GCSEs are now linear and completed at the end of Year 11. However, some vocational courses may have external assessments in Year 10.

- Sixth Form courses are related to the world of work and further education, including both academic and vocational qualifications.
- Close working relationships have been established with industry to ensure job readiness.
- The School remains open for Session 3 (3.20-4.50pm) offering a wide range of academic and recreational activities.
- The Session 3 programme enables students to take full advantage of the National Curriculum, spend extra time on Science, Technology and Mathematics and develop an understanding of industry and commerce.
- There is individualised support for students with special requirements such as express groups for able students.
- The whole curriculum is available online for students and parents to access from home via the Internet.
- The School uses electronic communication with parents whenever possible.
- Parents work in partnership with the School to support their child's education.
- The Personal Tutorial System helps to aid personal, social and educational development of students.
- The School is committed to safeguarding and promoting the welfare of young people.
- Student performance is monitored closely and regular meetings are held to agree goals and individual action plans.
- Parents receive module reports six times per academic year and are asked each module if they are satisfied with the standard of work, homework and also if they wish to make an appointment with the Personal Tutor.
- Charters for students and parents set out the services that they can expect from the School as well as indicating the standards of behavior expected of students and how parents can support their child.
- The extra curricular programme gives students a choice of opportunities which complement and extend their education. These range from sports and hobbies to community work and form an integral part of the timetable. Learning activities are directed towards self reliance, confidence and teamwork.

State of the Art Facilities and Resources

Creating the right working conditions was the key priority for the project team of architects, governors and teachers when the School was designed and the result is a spacious and light building which captures the atmosphere of the modern office.

An ongoing refurbishment programme ensures that the facilities are resourced with the most up to date equipment, so that the School can provide an environment which helps students to learn effectively.

- Large Learning Bases provide flexible teaching areas for student groups.
- Science Laboratories have been designed and equipped to provide large areas of accessible space for practical work.
- Computer systems with internet facility are available to students.
- An advanced IT infrastructure enables all parts of the School to be linked by computer, television, radio and video.
- Whiteboard technology is available in all teaching areas where teachers and students can access a comprehensive range of engaging media.
- Independent Learning Centres use online resources to support older students' individualised learning programmes.
- The Library and Information Resource Centre can store, retrieve and distribute books, pamphlets, videos and audio programmes.
- The Technology area consists of two large workshops serviced by Computer Aided Design (CAD) and Computer Aided Manufacture (CAM).
- Two Dance Drama Studios are equipped with sprung floors and full length mirrors.
- The Theatre has tiered seating for School productions and public events.
- The music facilities include teaching areas for individual, small group and larger ensemble work complemented by a comprehensive range of musical instruments. During the annual school show, the theatre is transformed into a professional venue.
- Music School takes place Monday-Thursday from 3.15pm - 6.00pm. It offers students the opportunity to pursue and develop their instrumental skills, taught by a team of visiting specialists.
- Hospitality and Catering courses take place in a specially designed training kitchen with modern industrial equipment.
- A floodlit fenced 3G synthetic grass pitch which is a superb teaching venue for football and also ensures that a full schedule of matches can take place.
- A floodlit fenced astroturf pitch, ideal for Hockey, Tennis, Netball and other sports. Sports field for Athletics, Rounders etc.
- Two new floodlit, fenced state of the art 3G pitches to ensure that Physical Education lessons can take place at the same time as extracurricular sports and fixtures.
- A competition standard swimming pool also provides opportunities for other activities such as water polo.
- A state of the art Fitness Centre promotes wellbeing for students and staff.
- Excellent changing facilities for sport are located adjacent to the sports field.
- A state of the art Business Academy and Careers Resource Centre providing Business students with advanced facilities and the Careers Centre providing students with extensive help and support for apprenticeship and university applications as well as mock interviews and work experience.

Rugby event

Floodlit all weather pitch and 2G Hockey pitch

Support Services provided

Thomas Telford School provides a comprehensive support service for the benefit of all students and parents. Some of these services include:

- Transport to and from school provided for students who live in Wolverhampton.
- Assistance with expenses. Free meals for those who qualify and support with travel and school clothing.
- Restaurant where Breakfast and Lunch are available as well as vending machines dispensing hot drinks and water.
- School Shop which stocks books and stationery.
- Library facilities available for students before and after school.
- Medical Room is supervised by qualified First Aid Staff, with facilities to administer first aid. School Reception is open between 7.30am and 6.00pm Monday to Thursday and 7.30am and 4.30pm on Fridays.
- Outstanding facilities for disabled students including a lift to all first floor areas and wheelchair access to every room.
- Thomas Telford School takes its responsibility seriously for the safeguarding of children. We work in line with current safeguarding guidance 'Keeping children safe in education' September 2026 and 'Working together to safeguard children' March 2026.
- The Special Needs Policy, Accessibility Plan and Equality of Opportunity Policy are amongst the many documents available via our website: www.ttsonline.net.
- Careers support and guidance for students throughout the School.
- Charter agreements between the School, parents and students which help to maximise student potential.
- The whole curriculum is available online for students and parents to access from home.

Safety & Security

The School has a closed circuit television security system supported by on-site security personnel and over 120 closed circuit cameras.

For transport purposes, coaches and mini-buses used by the School always have seat belts. Stewards are also employed to supervise the students who travel daily from Wolverhampton. Single point of entry system with a manned security gate, to closely monitor all visitors to the School.

Parental Involvement

A high standard of close working relationships with parents is central to the School's success. Parents are actively encouraged to become involved in the full life of the School in a variety of ways:

- Regular contact with Personal Tutors to discuss achievements and set targets for future progress.
- Parents work alongside teachers in school and on visits. Many share skills or expertise in a range of activities from sport to music to hearing children read.

Humanities

Results day

Examination Results

Our target is to exceed Local and National Averages at GCSE and A Level.

For over half a decade all of our students have achieved the Government target of 5+ Grade 9-4 passes. The School has regularly been at or near the top of the performance tables for comprehensive schools in England using the benchmarks of 5+ Grade 9-4 passes including Mathematics and English and the points score which reflects the breadth of the curriculum.

5+ grade 9-4 passes including Mathematics and English

2025	91%
2024	95%
2023	92%
2022	97%
2021	99% (TAGs)
2020	99% (TAGs)
2019	95%
2018	93%

Sixth Form Results

The School's target is to exceed the Local and National averages, and this has been achieved regularly. In 2025, the A Level average point score was 40.43 which is a B and the Vocational average point score was 37.72, which is a Distinction+.

	TTS	Telford and Wrekin (2025)	All state funded schools (2025)
A Level Grade	40.43 B	38.01 B	36.24 B
Vocational Grade	37.72 Dist+	32.94 Dist +	29.97 Merit+

Attendance Statistics

The School has a target of an overall average attendance which exceeds National and Local Averages. This target has been exceeded on a regular basis.

Attendance	TTS	Local Average	National Average
2025 - 2026	95.76%	91.95%	91.3%

Sixth Form at Thomas Telford School

- Economics
- Politics
- Sociology

Vocational

- Business Studies
- Travel and Tourism
- Performing Arts
- Health and Social Care
- Sport

Business, Sport and Performing Arts Academies

We also provide bespoke Business, Sport and Performing Arts courses.

Sixth Form Destinations

It is the aim of Thomas Telford School that every student should move into Higher Education or employment, when they have completed their education at the School.

Since the School opened in 1991, an average of more than 75% of our students have chosen to follow the university pathway with the vast majority of the others securing apprenticeships or employment.

All students receive support and practical help from the Careers Department until they have found suitable training or employment.

Thomas Telford School Alumni

Thomas Telford School's former students keep in touch with each other and the School. Our alumni network bring their experience and expertise to enrich the educational opportunities of current students through assembly and tutor talks, informal mentoring and links to employers.

	2021	2022	2023	2024	2025
Student Destination	%	%	%	%	%
University/Higher Education (incl Deferred University)	75	78	71	74	73
Employment/Apprenticeships	25	22	29	26	27

Personal Development

Thomas Telford School provides a wide range of opportunities for each student's personal development to help prepare them to live a well rounded, independent life.

Sport and Performing Arts make a valuable contribution to this development and the School offers a good choice for student participation in these areas (see pages 13 to 17).

A comprehensive careers guidance programme (see pages 11 and 12) informs and supports students throughout the School and they are encouraged to take part in a number of initiatives and competitions including the Annual Careers and Activities Week held in July as well as enterprise and work experience schemes. All these projects provide invaluable experience for students, boosting their confidence and giving them an insight into the world of work.

There is a good mix of education visits, field trips and tours in this country and abroad, including exchanges with schools in Europe.

Many students take part in the Duke of Edinburgh Award Scheme. This is open to students from Year 10 upwards and currently there are over two hundred students taking part at Bronze, Silver or Gold level. The Award's objective is to develop young people's personal skills and to broaden their range of experiences. There are four sections which involve learning a new skill; undertaking a service to others, for example, charity work; participating in physical recreation and undertaking a number of expeditions.

Netball PGL

Thomas Telford School offers Year 8 and Year 9 Netball students the opportunity to attend the biannual Netball PGL weekend, a valuable experience designed to broaden sporting horizons and support personal development. The weekend enables students to compete at a higher level of Netball than is typically available within Telford and Wrekin, allowing them to strengthen teamwork, enhance leadership skills and develop individual responsibility.

Across the weekend, students take part in a round robin tournament, competing against all schools within their age group.

The Mercers' Programme

With the generous funding of the Mercers' Company, Thomas Telford School has successfully delivered The Boys Programme for the sixth consecutive year in 2025/2026. Following the example set by Walsall Academy, we launched The Girls Programme two years ago, ensuring female students could benefit from the same opportunities and reflecting the strong positive outcomes seen over the past five years.

Now rebranded as "The Mercers' Programme," the initiative supports 24 boys and 12 girls in Year 10 who require additional academic guidance or who would benefit from targeted development of key employability skills, including leadership and communication. Rooted in the principles of Expeditionary Learning, the programme equips students with practical skills that strengthen their learning, confidence, and self-esteem. In May 2025, students completed an expedition in Ullswater, located in the Lake District. Throughout the 2025/2026 academic year, participants also attended a five night residential at the Outward Bound Centre in Ullswater. Activities included climbing, canoeing, axethrowing, and gorge walking. The centrepiece of the experience was a demanding 36 hour expedition covering over 50 kilometres, testing both their physical endurance and mental resilience. Students were organised into crews, two for the boys and one for the 12 girls. Each crew was led by a crew leader who also served as their Personal Tutor from the end of Year 10 through to the completion of their GCSEs, providing ongoing guidance and pastoral support. In addition to the Ullswater

The top teams progress to the semifinals and finals, facing opponents who play at an advanced level. This structure encourages students to recognise new techniques, refine how they usually play and apply the skills gained throughout the weekend as they continue to progress in Netball and in wider aspects of life.

Students also participate in a range of outdoor adventure activities, including rock climbing, abseiling, zipwiring and archery. These experiences promote independence, resilience and effective teamwork, while providing opportunities for students to overcome challenges and build confidence.

residential, this year saw the exciting introduction of "Crew Wars," held at Walsall Academy. Thomas Telford School and Sandwell Academy joined Walsall Academy with their Mercers' Programme cohorts to take part in additional Outward Bound-style challenges.

This collaborative event enabled students from all three academies to:

- Work together across schools
- Further develop leadership and communication
- Build confidence in new environments
- Experience outdoor activities they would not normally have the opportunity to take part in

The shared experience has strengthened the sense of community across the Mercers' Programme and provided students with a unique opportunity to push themselves outside their comfort zones. GCSE results for the cohort were extremely positive, particularly in the proportion of students achieving a Grade 4+ in English and Maths. Data gathered throughout the year shows consistent improvement across the group. For example, teachers assessed the boys' behaviour and attitudes to learning between May 2025 and April 2026: average survey scores rose from 6/10 to 8/10 by summer 2026, demonstrating clear progress. Parent feedback at the end of the programme was overwhelmingly positive, with 100% reporting significant improvement. Comments highlighted:

- Increased confidence
- Better organisation
- More positive attitudes towards school
- Greater responsibility
- A stronger sense of belonging at home and in school

Careers Information, Advice and Guidance

The importance of careers advice, guidance and support is paramount for all students from Year 7 to and including Sixth Form.

Thomas Telford School therefore employs a full time Director of Careers and a team of careers specialists to enhance career preparation and facilitate experiences with universities and employers. The aim of the department is for every student to have the right skills to enable them to plan their career during their time at the School and beyond.

- A Careers Policy and programme which sets out student entitlements to Careers (available on the School Careers website).
- A planned programme of Careers Education which provides opportunities to develop and apply the knowledge, understanding and skills necessary to make realistic career decisions.
- A continually updated Careers website giving students and parents access to vital careers information material online - see link on School website.
- A 'drop-in' Careers Resource Centre with comprehensive and up-to-date information on opportunities in education, training and employment.
- Individual impartial guidance from Schools Careers staff.
- Opportunities to experience the world of work, meet employers and learn about the skills and qualities required in the workplace.
- Access to a number of computer programmes including UCAS APPLY (for university applications) and Unifrog for careers exploration and planning.
- Support with career action planning, university applications and the preparation of effective CV's and job applications.
- Assistance with interview and public speaking skills together with assessment centre preparation.
- Annual careers and higher education fair.

Careers Discovery In Action

Business and Industry Partnerships

One of the features which distinguishes Thomas Telford School from other schools is the quality of the partnership shared with industry. Employers make a major contribution to the design, delivery and assessment of the curriculum as well as providing work placements for students.

- There is a rich diversity of contacts with over 600 organisations in Telford and Wolverhampton on our industry database.
- Local and national businesses sponsor Achievement Awards to students whose work is worthy of commendation.
- Students are regularly involved with project work for local companies.
- Support is given to students to gain regular volunteering and/or work experience to enable them to make competitive applications for university courses and higher or degree apprenticeships.
- Key local business managers work with students and teachers and provide mock virtual interviews for all Year 10 Students.
- Students take part in a Careers and Activities Week every year to enable them to develop employability skills, hear from employers and former students and help them with their careers planning.
- All Sixth Form students have the opportunity to undertake both in person and virtual work experience placements, with employers from the private and public sectors of industry, commerce and education.

University Programme

- Promotion of residential summer schools for students in Years 10, 11 and the Sixth Form.
- Trips to university taster and study days.
- Individual guidance from the Careers staff about course choice and back up plans.
- Annual Higher Education and Careers Fair.
- One to one help with UCAS applications and Personal Statements.
- Quality control of every student application to University.
- Higher Education finance information evening for students and parents.
- Oxford, Cambridge, Medicine, Dentistry and Veterinary application preparation programme for high potential students including Open Day visits, admissions test preparation and interview technique guidance.
- Access to extra financial support for University education is also available through the generous support of The Mercers' Company bursaries.
- A Careers and Higher Education Week in July to give students a head start in the University application process with presentations from and visits to Universities as well as time to complete UCAS preparation. The week also introduces students to school leaver programmes and higher degree apprenticeships.

Sport at Thomas Telford School

Sporting Provision

Students are offered a wide range of sports opportunities to improve their skills and engender a desire to participate in sport for the rest of their lives.

- Students are encouraged to participate in competitive sport against their peers and students from other schools.
- Students experience the wide range of social, moral and cultural benefits that sports participation provides.
- Throughout Years 7 and 8 students follow a full programme of practical activities during two 90 minute sessions each week.
- In Key Stage 4 (Years 9, 10 and 11) students follow either the GCSE Physical Education Course or the BTEC Sport Tech Course which involves theory as well as practical sport.
- In the Sixth Form, students can choose to follow A Level Physical Education or the BTEC National in Sport.
- A successful Sports Academy in the Sixth Form incorporates the BTEC Extended Diploma in Sport as well as a comprehensive football coaching and fitness programme.
- Sixth Form students can take part in a wide range of sports for the School on Wednesday afternoons. The senior Football, Netball and Hockey teams play in local and national competitions and are very successful.

Session 3 Sport

All students can take part in the wide range of sports which are offered during Session 3 (between 3.20pm and 4.50pm). They can progress from participation and competition at House level, through school teams onto district, county, regional and national representation.

Fitness for Learning

A 70 - section Fitness Centre with a functional area provides students with a opportunity to improve their fitness, using a wide range of state of the art equipment for both aerobic exercise and resistance training.

The centre has fully trained instructors and computer software system to support and monitor the progress of the users.

Students have the opportunity to use the equipment during Physical Education lessons and also in Session 3.

Gym instructor training courses offered to students in the Sixth Form. We currently have 20 Sixth Form students training to be gym instructors.

Swimming Pool

The 25 metre, six lane pool provides students with a wide range of aquatic activities. In addition to regular Physical Education sessions, during Session 3 students can take part in Water Polo and Biathlon, Swim Squad Training and Swim Fitness.

Performing Arts

- Thomas Telford School has established and maintains a reputation for excellence in the Performing Arts.
- A range of courses are available in Key Stage 4, including GCSEs and BTEC.
- The Sixth Form also provides opportunities for a variety of courses including a specialist Performing Arts Academy.
- Every year Sixth Form students win places at prestigious dance, theatre institutes and universities to pursue their careers.
- We have a large alumni of ex-students performing worldwide

Music School

- A thriving Music School takes place during Session 3 on Mondays, Tuesdays, Wednesdays and Thursdays.
- Individual instrument tuition is available covering a wide range of instruments and examinations are offered in most instruments (ABRSM, Trinity & LCM and RGT Boards).
- There are opportunities to participate in a range of ensembles including Rock Bands, choir and chamber orchestra.
- Two large-scale concerts, and a range of informal showcase concerts are held in school each year, with opportunities for students to perform in regional and national events.

Drama Club

- A Drama Club runs during Session 3 for Key Stage 3 students throughout the year. This allows students the opportunity to perform their work.
- Students who attend Drama club and other Performing Arts workshops have the opportunity to attend Theatre trips and other extracurricular activities.

Dance Academy

- Highly popular with Key Stage 3 and Key Stage 4 students.
- Provides a dynamic session for students who don't attend a formal dance school.
- Gives students the chance to experience vocational-style dance training, with multiple performance opportunities throughout the year.
- Students develop strong dance techniques and skills, building confidence, discipline, and expressive ability.
- A thriving Dance Academy is in place during session 3, giving students who do not attend a formal dance school the opportunity to experience vocational dance. There are performance opportunities built into this programme.

Dance Academy Performance Opportunities

- There is an annual musical theatre production involving students from all age ranges.
- Christmas and Summer Concerts involve students from all ages
- Regular Arts Night performances for Sixth Form Performing Arts Academy Students
- Visits abroad are arranged to provide further opportunities for performance and study.

Performing Arts Students Seal of Approval

"The annual musical theatre production was a phenomenal experience and it was superb to work on such a professional show to a sell-out audience every night."

"The Performing Arts training fully prepares you for a professional career in the industry. We are part of a team that enthuses young talents and allows them to gain great skills. It is a great experience and learning curve for those wanting to take Performing Arts further in the future."

"The Music Department offers a vast range of performance opportunities for students of all ages and abilities"

Admission to the School

Applications are invited from students of all abilities including those with special educational needs and disabilities. Learning is organised so that all students can benefit from the individual approach.

If you live within the Telford Town boundary or in the City of Wolverhampton or outside the City but in postcodes WV6, WV8 and WV9, your child may be eligible for a place in Year 7. Applications for Sixth Form are welcomed from students both inside and outside the catchment area.

- The School offers the full National Curriculum and wide ranges of GCSEs and Advanced A Levels, although students with a marked interest in or aptitude for Science, Technology and Mathematics are particularly suited for a place at Thomas Telford School.
 - Free education is provided for all students. The School is funded directly by the Government.
 - Transport is provided for students who live in Wolverhampton.
 - Support with the admissions process is available for students with special educational needs or disabilities
- Please see admissions contact details on the back cover of this prospectus.

Mrs Alice Hohler, from the Mercers' Company with some of the prize winning students at July Achievement Evening 2026.
